 16 guns
Left Group: Sco"bladh
 21 guns

Note: If a Swedish regimental name has a "-" in it, that "-" seperates the regimental name from the type of regiment. The type of regiment is later translated into English and the translation is in paranthesis.

The names in quotation marks is the name of the battalion commander. This was done to distinguish between the various battalions of the same regiment where no other distinction is indicated in the original source.

Sweden Armen Generastaben, Karl XII Pa Slagfaltet, Stockholm, 1918
