Note #1: The anti-tank weapons listed below the panzerjäger battalion probably includes all anti-tank weapons in the division. The medium weapons are most likely assigned to the infantry as close support anti-tank weapons. The 75mm and larger weapons and the StuGs were always assigned to the panzerjäger battalion.

Note #2: The assignment of the 540th and 561st Infantry Battalions z.b.V is uncertain. Records indicate such a battalion being assigned, but are not adequate to determine which one was where.

Note #3: Some of the corps and army units were identified using casualty lists around 3/1/44, but those shown are only a partial listing of those that were definitely present.
