The units of XIV.Fliegerkorps acted as a pool from which units were deployed as necessary. There are a few problems with this OB. I/SKG 10 had been redesignated as III/KG 51 back in December 43 though I suppose it's possible that the old designation lingered in use for some time. A bigger problem is the pair of II/TG 5s. One of these is really I/TG 5 though I don't know which one.
